FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Conservation** assume there will be no fiscal impact to their agency.

Officials from the **Department of Natural Resources** assume this proposal would eliminate certain conflicts between state statute and corresponding state and federal regulations. The department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Office of Administration - Division of Facilities Management Design & Construction (FMDC)** assume currently they figure for permits and fees per EPA in projects, and this new requirement would additional cost.

FMDC assumes this proposal would have an unknown fiscal effect on their division. This could cause project funds to be spent for additional permits and administrative costs, taken from the project materials/labor dollars if these additional costs are not funded. This new requirement will cause additional delays in completing CI projects due to the additional administrative requirements.

Oversight assumes, as was stated by the Department of Natural Resources in their response, this proposal would eliminate certain conflicts between state statute and corresponding state and federal regulations. **Oversight** assumes there would be no direct fiscal impact from this proposal.

<u>FISCAL IMPACT - State Government</u>	FY 2011 (10 Mo.)	FY 2012	FY 2013
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
<u>FISCAL IMPACT - Local Government</u>	FY 2011 (10 Mo.)	FY 2012	FY 2013
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

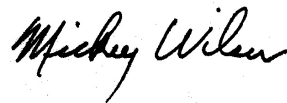

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
